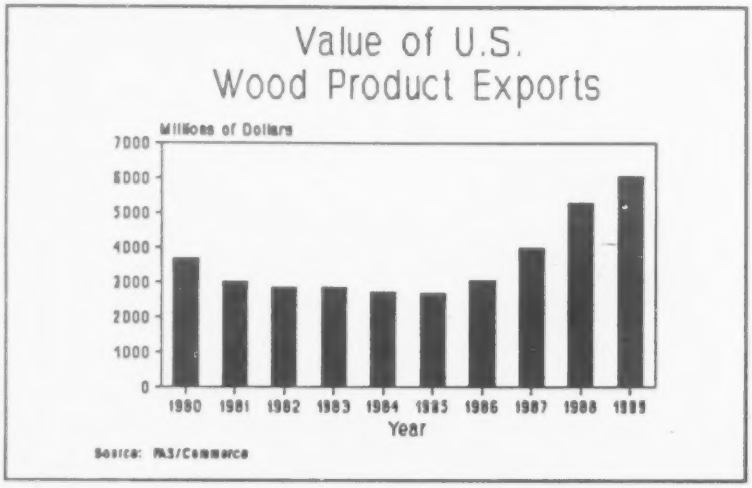
STATISTICAL ROUNDUP

QUARTERLY STATISTICAL SUPPLEMENT

A publication of the National Forest Products Association *February 1990*

GRAPHICAL ABSTRACT



The U.S. was a net exporter of wood products last year. Exports were at an all-time high of just over $6 billion.

ESTIMATED REGIONAL SOURCES OF DOMESTIC LUMBER CONSUMPTION

[1] Sawed timber, board planks and scantlings, siding, flooring, box shook and railroad ties.

[2] Includes siding, flooring and other dimension (exports only).

[3] Includes hardwood flooring, siding and other dimension.

Note: (1) Because of suspected errors in U.S. data, softwood lumber imports for the first quarter of 1989 are based on Canada's reported exports (source: Statistics Canada and COFI). Imports of other pine lumber for the period July-December, 1989, were adjusted based on average per unit value of imports during the first six months of the year. Hence, NFPA-reported softwood lumber imports from official government estimates.
(2) Because of conversion to the Harmonized System of Tariff Nomenclature in 1989, species categories are no longer comparable to previous years.
